SUMMARY

Full-stack developer who ships production software end to end. Built and operate **Invo Billing**, a GST-compliant invoicing SaaS live at invobilling.com (Go/PostgreSQL backend, SwiftUI iOS client), published **eBillz** and **Quick-Labelz** to the Apple App Store, and delivered websites for real clients. Core stack: Go, PostgreSQL, SwiftUI, React Native, Next.js, TypeScript, Docker.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer — Bengaluru, India

2023–Present

Invo Billing — GST Invoicing SaaS (Founder & Sole Developer)

invobilling.com

- Designed, built, and operate a production Go/Gin + PostgreSQL REST API with 40+ endpoints (invoices, clients, expenses, ledger, payments, credit notes) and JWT authentication
- Built a GST-compliant PDF engine in Go: multi-page invoices, CGST/SGST/IGST breakdowns, HSN/SAC codes, and Indian-Rupee amount-in-words — no third-party PDF service
- Containerized with Docker and deployed to Render with custom domain and SSL; own the full release workflow and production incident debugging
- Developed the SwiftUI iOS client with Keychain auth, in-app PDF viewing, and invoice email delivery via Resend; currently in TestFlight beta ahead of App Store release
- *Go, Gin, PostgreSQL, Docker, Render, SwiftUI, Resend*

Ralas Hearing Clinic — Client Website

ralasclinic.com

- Designed, built, and delivered a production website for a hearing-care clinic with dynamic article routes, appointment information, and five product pages
- Implemented comprehensive on-page SEO (semantic markup, JSON-LD structured data, per-page metadata, sitemap, robots.txt) and Google Analytics for a real local business
- Optimized for budget Android devices with image optimization and utility-only CSS
- *Next.js 16, Tailwind CSS v4, Vercel, Google Analytics*

Laxmi Pipe Centre — Product Catalog Website

laxmipipecentre.com

- Built a hardware product catalog with 100+ listings and instant search via Algolia
- *Next.js, Tailwind CSS, Firebase, Algolia*

PERSONAL PROJECTS

eBillz — Invoicing App

Published on App Store

- Shipped a cross-platform invoicing app through Apple's full review process: PDF generation, expense tracking, cloud media storage
- *React Native, Node.js, MongoDB Atlas, AWS S3, NativeWind*

QuickLabelz — Product Label Printer

Published on App Store

- Built a label printing app using the Brother SDK for thermal printers; search products, customize label layouts, and print directly from iOS
- *SwiftUI, Brother Printer SDK, Bluetooth*

Presentsz — Bluetooth-Based College Attendance

In development

- Building proximity-verified attendance: ESP32 BLE beacons in classrooms detected by a React Native (Expo) app, backed by a Go/Gin + PostgreSQL API for classes, sessions, and records
- *React Native, Expo, Go, Gin, PostgreSQL, ESP32, BLE*

Rangdaan — AI-Powered Price Lists for Paint Dealers (iOS)

In development

- Building a SwiftUI + SwiftData app that extracts items from uploaded price-list PDFs using the Claude API and computes dealer / GST-inclusive / cost prices
- *SwiftUI, SwiftData, MVVM, Claude API (LLM integration)*

TECHNICAL SKILLS

- **Languages:** Go, Swift, TypeScript, JavaScript

- **Backend:** Gin, Node.js, Express.js, REST API design, JWT auth, PDF generation, Resend
- **Mobile:** SwiftUI, SwiftData, React Native (Expo), Brother Printer SDK, TestFlight & App Store releases
- **Frontend:** React, Next.js, Tailwind CSS, HTML, CSS
- **Data & Infra:** PostgreSQL, MongoDB, Docker, Render, AWS S3, Vercel, Git, Razorpay

EDUCATION

B.Tech in Software Engineering	GPA: 7.8/10
Jain University, Bengaluru	2019–2023
